Letter of Recommendation: Hugo Zavala/Zavala Corporation

Dear Sir or Ma'am,

The Pool Company constructs commercial aquatic facilities throughout the continental United States and has employed Hugo and his team on more than 15 projects located throughout the United States in the past 7 years. Hugo and his team have always provided our team and clients with the highest level of quality finished product. Not once has Hugo let our team down. Hugo and his team are the most proficient and productive concrete/rebar subcontractor that we have ever worked with and it is always a pleasure to have his team working on our projects with us. In addition to being very, personable, honest, forthright and reliable one of Hugo's most admirable qualities is that he is always a team player and approaches each project with the betterment of the entire construction team in mind. Hugo is not a selfish person and on every project makes our firm a "better" firm. On a scale of one through five I give Hugo and his team a score of six stars. I unequivocally recommend Hugo and his firm to you and your team if you want the highest quality product provided to you in the most timely and efficient manner.

Please contact me with any questions or inquiries that you may have; I am always available on my cellular at 406-396-3392.

Respectfully,

Matthew Ruzicka  
President  
The Pool Company Inc.
